## Boswellia Serrata Extract LOT F0J024

### Molecular Formula

n/f

### Molecular Weight

n/f

### CAS Number

n/f

### LABEL TEXT

### USP<sup>®</sup> REFERENCE STANDARD

BOSWELLIA SERRATA EXTRACT 1 g

Warning! Causes eye irritation.

Do not dry. Keep container tightly closed. Protect from light and moisture. Store in a refrigerator. This material is hygroscopic.

USP, 12601 Twinbrook Pkwy, Rockville, MD, +1-301-881-0666

CAT No. 1076250

Material mfd in India

Intentionally over-labeled for GHS compliance

For use with specified USP compendial tests. Not for use as a drug. See SDS prior to use at [www.usp.org/sds](http://www.usp.org/sds).

Wash thoroughly after handling. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

USP certifies that the USP Reference Standards Committee, in accordance with their rules and procedures, determined that this USP Reference Standard lot is suitable to assess compliance with the monograph standards for which it is specified. The critical characteristics of this lot are usually determined independently in three or more laboratories, including USP, government, academic, and industrial collaborators.

# TYPICAL CHROMATOGRAM

## USP Boswellia Serrata Extract RS

Cat. No. 1076250, Lot F0J024

### USP Monograph:

Boswellia Serrata Extract (PF 35 (4))

**Test:** Content of Keto-Derivatives of  $\beta$ -Boswellic Acids

**Solution:** *Standard Solution B*

Detect at 210 nm

Detect at 254 nm

This chromatogram is supplied for information only to assist in identifying peaks and does not constitute any legal requirement.

### **Calculation Value**

Unless otherwise stated on the Reference Standard label, a value of 100.0% should be used in USP or NF compendial applications for which the use of this Reference Standard is intended. Please refer to the specific Reference Standard label for further information.

### **Expiration**

Current lots are identified in the Official USP Reference Standards catalog. In some cases, the previous lot may still be considered official. If so, it is identified in the column marked "Previous Lot/Valid Use Date." Ordinarily, the previous lot is carried in official status for about one year after the current lot enters distribution.

It is the responsibility of each user to determine that this lot is current when used. To ensure up-to-date information, USP publishes the Official USP Reference Standards Catalog, which contains official lot designations. This information is also available on the USP web site, at [www.usp.org](http://www.usp.org), as well as in the bimonthly subscription publication, *Pharmacopeial Forum*.

### **Instructions for Use**

Follow the instructions in the appropriate USP or NF Monographs and General Requirements for Tests and Assays of the current *USP–NF*. In the event that instructions on the label of this lot differ from those found in the current *USP–NF*, those on the label supersede any instructions listed in Chapter <11>.

### **Non-Monograph Use**

The suitability of this Reference Standard for use in non-compendial applications is solely the responsibility of the user.

---
