USP Certificate

Chloroquine Related Compound A LOT F0J200

Molecular Formula

C₉H₅Cl₂N

Molecular Weight

198.05

CAS Number

86-98-6

LABEL TEXT

REFERENCE STANDARD

CHLOROQUINE RELATED COMPOUND A 25 mg
(4,7-dichloroquinoline)

Warning! Causes skin irritation. Causes serious eye irritation.
May cause respiratory irritation.

Do not dry. For quantitative applications, use a calculation value of
1.00 mg of chloroquine related compound A per mg of material on
the as is basis. Keep container tightly closed.

USP, 12601 Twinbrook Pkwy, Rockville, MD, +1-301-881-0866

CAT No. 1118328

Material mfd in India

Intentionally over-labeled for GHS compliance

For use with specified USP compendial
tests. Not for use as a drug. See SDS prior
to use at www.usp.org/sds

Use only outdoors or in a well-ventilated area. Avoid breathing dust. Wash
thoroughly after handling. Wear protective gloves/eye protection/face
protection. If on skin: Wash with plenty of water. If skin irritation occurs: Get
medical advice/attention. If inhaled: Remove person to fresh air and keep
comfortable for breathing. Call a poison center/doctor if you feel unwell. If in
eyes: Rinse cautiously with water for several minutes. Remove contact
lenses, if present and easy to do. Continue rinsing. If eye irritation persists:
Get medical advice/attention. Take off contaminated clothing and wash
before reuse. Store in a well-ventilated place. Keep container tightly closed.
Store locked up. Dispose of contents/container in accordance with
local/regional/national/international regulations.

USP certifies that the USP Reference Standards Committee, in accordance with their rules and procedures, determined that this USP Reference Standard lot is suitable to assess compliance with the monograph standards for which it is specified. The critical characteristics of this lot are usually determined independently in three or more laboratories, including USP, government, academic, and industrial collaborators.

Jeri L. Toth

QA Director

Calculation Value

Unless otherwise stated on the Reference Standard label, a value of 100.0% should be used in USP or NF compendial applications for which the use of this Reference Standard is intended. Please refer to the specific Reference Standard label for further information.

Expiration

Current lots are identified in the Official USP Reference Standards catalog. In some cases, the previous lot may still be considered official. If so, it is identified in the column marked "Previous Lot/Valid Use Date." Ordinarily, the previous lot is carried in official status for about one year after the current lot enters distribution.

It is the responsibility of each user to determine that this lot is current when used. To ensure up-to-date information, USP publishes the Official USP Reference Standards Catalog, which contains official lot designations. This information is also available on the USP web site, at www.usp.org, as well as in the bimonthly subscription publication, *Pharmacopeial Forum*.

Instructions for Use

Follow the instructions in the appropriate USP or NF Monographs and General Requirements for Tests and Assays of the current *USP–NF*. In the event that instructions on the label of this lot differ from those found in the current *USP–NF*, those on the label supersede any instructions listed in Chapter <11>.

Non-Monograph Use

The suitability of this Reference Standard for use in non-compendial applications is solely the responsibility of the user.
