

**Certificate of Certified Reference Material**

**NCS DC71320 —NCS DC71322**

**Spodumene**

**Issued in 2021**

**Approved by China National Analysis Center for Iron and Steel**

**(Beijing China)**

These Certified Reference Materials are prepared in accordance with the ISO guides 30-35. The intended use for this CRM is for the quality control in spodumene analysis, the evaluating methods of analysis and the calibration of analytical instruments.

Data in () is for reference only, value with \* is in percent..

Note:

- 10 independent laboratories take part in the analytical work.

The analysis results for elements is no less 6 labs.

Uncertainty is calculated by  $U = t_{0.05(N-1)} \cdot s / \sqrt{U_a^2 + U_b^2}$ ,  $U_a$  is got by standard deviation of the data from different labs,  $U_b$  is got by standard deviation of methods. S means standard deviation, N means number of data.

2. The sample is powder with size less 0.074mm packed in plastic bottle.  
 The minimum package is 50 grams. The minimum weight for analysis is: LOI: 1.0g, FeO: 0.5g,  
 Others is 0.1g.  
 3. The valid time for the certified value is 10 years.

Note:

DAF: digestion by Alkali fusion

DF: digestion by mixed acids in airtight

DMA: digestion by mixed acids

FUS: fusion

AAS: Flame Atomic Absorption Spectrometry

AFS: Atomic fluorescence Spectrometry

COL:Colorimetric method

GR: Gravimetry

ICP-AES: Inductively Coupled Plasma- Atomic Emission Spectrography

ICP-MS: Inductively Coupled Plasma- Mass Spectrometry

IR : Infrared absorption

POL: polarographic method

VOL: Volumetry

XRF: X - ray fluorescence

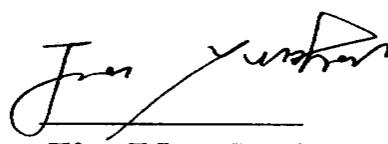

## Traceability, stability and homogeneity

All the laboratories take part in the analysis are with ISO17025 certificate, all the methods and instruments used are fulfilled the requirement of metrology to guarantee the traceability. Randomly selected samples were test by above method for monitoring the homogeneity and stability. The results show that the material is homogenous and stable when stored properly.

## Statement:

This material is used only in labs and for analysis work, producer will be not responsible for any problem caused by misuse or not properly store.

Please check carefully the package, quantity and type of the material after receiving it. Related compensation is only limited in the certified materials, any other losses will be not included.
