

Out of Stock - Item is not available at this time - Potassium Dihydrogen Phosphate (see also 2186-I)

Art. ID NIST-2186I
Unit 30 g
Deliverydetails No Dangerous Good /not restricted

Description

These lots of potassium dihydrogen phosphate (KH₂PO₄) and disodium hydrogen phosphate (Na₂HPO₄) were prepared to ensure high purity and uniformity. The solution 0.025 molar solution with respect to both KD₂PO₄ and Na₂DPO₄ is recommended for the calibration of pH meters to be used for the measurement of pD in deuterium oxide. /// Sample value(s) - please ask for current certificate.
