

2-(Acetylamino)-2-[(3-methoxy-4-nitrophenyl)methyl]-propanedioic Acid 1,3-Diethyl Ester

Art. ID TRC-A135010-500MG

Unit 500 mg

Deliverydetails De Minimis

Description

Application Note: 2-(Acetylamino)-2-[(3-methoxy-4-nitrophenyl)methyl]-propanedioic Acid 1,3-Diethyl Ester is an intermediate in synthesizing 4-Amino-m-tyrosine (A632020), a degradation product of Pheomelanin, a compound found in hair and skin in humans.
