

Acetylshikonin

Art. ID TRC-A164615-2.5MG
Unit 2,5 mg
Deliverydetails De Minimis

Description

Application Note: Acetylshikonin is the main ingredient of Zicao, which has used in clinics as a traditional Chinese for thousands of years. It exerts anti-obesity and anti-NAFLD effects through the regulation of lipid metabolism and anti-inflammatory effects. Also, it is a 1,4-naphthoquinone pigment extracted from the roots of Lithospermum erythrorhizon with anti-tumor effects.
