

D-Allose

Art. ID TRC-A548005-1G
Unit 1 g
Deliverydetails De Minimis /not restricted

Description

Application Note: D-Allose is a rare naturally occurring monosaccharide, is known to exert anti-proliferative effects on cancer cells. The effects of D-Allose on the cellular membranes of hormone-refractory prostate cancer cell line (DU145), hormone-sensitive prostate cancer cell line (LNCaP), and normal prostate epithelial cells (PrEC) were studied at the molecular level by phospholipid profiling using a shotgun lipidomic method.

Text/Information	Analyte/Parameter	CAS number	Concentration/Value	Unit	Method	Source
	D-Allose	[2595-97-3]
