

### **(2-Amino-3-methylphenyl)methanol**

Art. ID TRC-A638103-100MG  
Unit 100 mg  
Deliverydetails De Minimis /not restricted

#### Description

Application Note: (2-Amino-3-methylphenyl)methanol is a useful research chemical for organic synthesis and other chemical processes.

| Text/Information | Analyte/Parameter                 | CAS number   | Concentration/Value | Unit | Method | Source |
|------------------|-----------------------------------|--------------|---------------------|------|--------|--------|
|                  | 2-Amino-3-methylbenzyl<br>alcohol | [57772-50-6] |                     |      |        |        |
