

## **Working Level CLP Pesticide Daily QC Mix A, Varied conc, in Isooctane**

Art. ID ACCU-CLP-023R-WL-4X-10ML  
Unit 10 mL  
Deliverydetails ADR Excepted Quantity (EQ) / AIR Excepted Quantity (EQ) UN1262 II E2

| Text/Information | Analyte/Parameter                                             | CAS number  | Concentration/Value | Unit  | Method | Source |
|------------------|---------------------------------------------------------------|-------------|---------------------|-------|--------|--------|
|                  | alpha-HCH                                                     | [319-84-6]  | 20                  | ng/mL |        |        |
|                  | gamma-HCH (Lindan)                                            | [58-89-9]   | 20                  | ng/mL |        |        |
|                  | 4,4'-DDD                                                      | [72-54-8]   | 40                  | ng/mL |        |        |
|                  | 4,4'-DDT                                                      | [50-29-3]   | 40                  | ng/mL |        |        |
|                  | 2,2',3,3',4,4',5,5',6,6<br>'-Decachlorobiphenyl (P<br>CB 209) | [2051-24-3] | 40                  | ng/mL |        |        |
|                  | Dieldrin                                                      | [60-57-1]   | 40                  | ng/mL |        |        |
|                  | Endosulfan-I (alpha)                                          | [959-98-8]  | 20                  | ng/mL |        |        |
|                  | Endrin                                                        | [72-20-8]   | 40                  | ng/mL |        |        |
|                  | Heptachlor                                                    | [76-44-8]   | 20                  | ng/mL |        |        |
|                  | Methoxychlor                                                  | [72-43-5]   | 200                 | ng/mL |        |        |
|                  | 2,4,5,6-Tetrachloro-m-x<br>ylene                              | [877-09-8]  | 20                  | ng/mL |        |        |
