

Aldrin

Art. ID TRC-A521050-10MG
Unit 10 mg
Deliverydetails De Minimis UN2811 I E5

Description

Application Note: Aldrin is a chlorinated cyclodiene pesticide that is widely used to maintain control of pests and insects from crops. The use of Aldrin has been regulated and controlled in the early 1970's with fears of bioaccumulation in the environment and possible carcinogenicity.
