

Aluminum Phthalocyanine Chloride

Art. ID TRC-A576023-100MG
Unit 100 mg
Deliverydetails De Minimis /not restricted

Description

Application Note: Aluminum phthalocyanine chloride (CAS# 14154-42-8) is a fluorescent organometallic compound, able to generate reactive oxygen species. The photophysical properties of aluminum phthalocyanine chloride has allowed for the preparation of thin film organic photodetectors for indirect X-ray detection.
