

2-Amino-1-(3-hydroxyphenyl)-1-propanone Hydrochloride

Art. ID TRC-A609885-100MG

Unit 100 mg

Deliverydetails De Minimis

Description

Application Note: 2-Amino-1-(3-hydroxyphenyl)-1-propanone Hydrochloride is derived from Metaraminol Bitartrate (M225565), which is a vasopressor comparable to ephedrine used in the maintenance of arterial pressure during spinal anesthesia. Also used in the treatment of hypotension while under the effect of anaesthesia.
