

1-Amino-7-naphthalenesulfonic Acid

Art. ID TRC-A618353-50G
Unit 50 g
Deliverydetails ADR Limited Quantity (LQ) / AIR Dangerous Good (DG) UN2585 III E1

Description

Application Note: 1-Amino-7-naphthalenesulfonic Acid is used as an analyte in the development of several detection and analytical methods.

| Text/Information | Analyte/Parameter | CAS number | Concentration/Value | Unit | Method | Source |
|------------------|------------------------------------|------------|---------------------|------|--------|--------|
| | 8-Amino-2-naphthalenesulfonic acid | [119-28-8] | | | | |
