

### **(3S)-Aminoquinuclidine**

Art. ID TRC-A628775-250MG  
Unit 250 mg  
Deliverydetails De Minimis

#### Description

Application Note: (3S)-Aminoquinuclidine is an intermediate used in the synthesis of Palonosetron-3-ene Hydrochloride (P165825), which is an impurity of Palonosetron (P165800), a serotonin 5-HT<sub>3</sub> receptor antagonist used in the prevention and treatment of chemotherapy-induced nausea and vomiting (CINV). Antiemetic.
