

(S)-2-((S)-2-Amino-4-carboxybutanamido)pentanedioic Acid

Art. ID TRC-A790273-50MG
Unit 50 mg
Deliverydetails De Minimis /not restricted

Description

Application Note: (S)-2-((S)-2-Amino-4-carboxybutanamido)pentanedioic Acid is an amino acid derivative that is used in a variety of settings, including polypeptide synthesis. It has been used in the preparation of pharmaceuticals (using polypeptides) towards the treatment of diabetes and obesity.
