

1-Acetyl-3-indoxyl-d5 Acetate

Art. ID TRC-A168011-50MG
Unit 50 mg
Deliverydetails De Minimis

Description

Application Note: 1-Acetyl-3-indoxyl-d5 Acetate is an intermediate in the synthesis of 3-Indoxyl Sulfate-d4 Potassium Salt (I655102), which is a labelled uremic toxin that acts as a potent endogenous agonist for the human aryl hydrocarbon receptor (AHR). Studies suggest that it is a sensitive and early biomarker of nephrotoxicity.
