

Acarbose D-(3-Dehydroxy)-fructose Impurity

Art. ID	TRC-A123545-25MG
Unit	25 mg
Deliverydetails	De Minimis

Description

Application Note: Acarbose D-(3-Dehydroxy)-fructose Impurity is an intermediate used in the synthesis of Acarbose D-Fructose Impurity (A123515), which is an impurity of Acarbose (A123500), an anti-diabetic.
