

6-Acetamido-3-bromopicolinic Acid

Art. ID	TRC-A143100-10G
Unit	10 g
Deliverydetails	ADR Excepted Quantity (EQ) / AIR Excepted Quantity (EQ)

Description

Application Note: 6-Acetamido-3-bromopicolinic Acid is a chemical reagent used in the preparation of anti-retroviral agents. Derivative of Picolinic Acid (P437220), used in the preparation of 2-Aminodihydro[1,3]thiazines as BACE 2 inhibitors and their preparation and use in the treatment of diabetes.
