

1-(1-Adamantyl)ethanol

Art. ID TRC-A208400-10G
Unit 10 g
Deliverydetails ADR Excepted Quantity (EQ) / AIR Excepted Quantity (EQ)

Description

Application Note: 1-(1-Adamantyl)ethanol is patented for use to catalyze the change of the load state of MHC molecules and possible use in treatment and diagnosis of cancer, infectious diseases, and autoimmune diseases. It also shows inhibitory action against herpes simplex virus type 1, vaccinia virus, vesicular stomatitis virus, fowl plaque virus, respiratory syncytial virus, and Venezuelan encephalitis virus.
