

2-Amino-5-chlorobenzaldehyde

Art. ID TRC-A617790-250MG
Unit 250 mg
Deliverydetails De Minimis

Description

Application Note: 2-Amino-5-chlorobenzaldehyde is an intermediate used in the synthesis of 6-Chloro-2-(6-methyl-3-pyridinyl)-3-[4-(methylsulfonyl)phenyl]-1,8-naphthyridine (C381440), which is an impurity of Etoricoxib (E934100), a specific inhibitor of COX-2.
