

Amino-Pimonidazole Glutathione Conjugate

Art. ID	TRC-A629133-10MG
Unit	10 mg
Deliverydetails	De Minimis

Description

Application Note: Amino-Pimonidazole Glutathione Conjugate is a derivative of Pimonidazole (P447813,) an effective and nontoxic hypoxia detection reagent. Pimonidazole forms adducts with thiol groups in proteins, peptides and amino acids. It abels hypoxic tumor cells in vivo. Also labels hypoxic mesenchymal stem cells in mouse bone marrow.
