

2-Amino-1-(4-trifluoromethoxyphenyl)ethanone Hydrochloride

Art. ID TRC-A629575-5G
Unit 5 g
Deliverydetails ADR Excepted Quantity (EQ) / AIR Excepted Quantity (EQ)

Description

Application Note: 2-Amino-1-(4-trifluoromethoxyphenyl)ethanone Hydrochloride is a reagent for the preparation of 4-phenylimidazole-2-thiones as tyrosinase inhibitors, their pharmaceutical and cosmetics compositions for the treatment or the prevention of the pigmentary disorders.
