

N-(Aminoiminomethyl)-N-methyl-phenylmethylglycine Ester

Art. ID TRC-A611395-500MG
Unit 500 mg
Deliverydetails De Minimis

Description

Application Note: N-(Aminoiminomethyl)-N-methyl-phenylmethylglycine Ester is an intermediate in the synthesis of Phosphocreatine-13C3 (P354602), which is an isotope labeled Phosphocreatine used in the synthesis of hydroxyapatite nanorod/nanosheets. Phosphocreatine is used in the treatment of heart and brain ischemia.
