

Electrolytic iron rod

Art. ID	NIST-8420
Unit	rod 0,64 D x 5,0 cm
Deliverydetails	No Dangerous Good /not restricted

Description

This Research Material (RM) is for use in testing methods for measuring thermal conductivity and electrical research.

Text/Information	Analyte/Parameter	CAS number	Concentration/Value	Unit	Method	Source
Please aks for the current certificate	Thermal Conductivity					
Please aks for the current certificate	Electrical resistivity
