

Silicon nitride powder

Art. ID	NIST-8983
Unit	4,5 g
Deliverydetails	No Dangerous Good /not restricted

Description

This Reference Material (RM) is intended primarily for use as an analytical standard for the determination of nitrogen, oxygen, and carbon in silicon nitride powder by the high temperature combustion method. One unit of NIST-RM-8983 consists of a bottle of approximately 4.5 g of silicon nitride powder. Please ask for the report of investigation.
