

**Refractory, silica type, Powder**

Art. ID VS-K1/3  
Unit 75 g  
Deliverydetails No Dangerous Good

| Text/Information | Analyte/Parameter              | CAS number  | Concentration/Value | Unit | Method | Source |
|------------------|--------------------------------|-------------|---------------------|------|--------|--------|
|                  | Al <sub>2</sub> O <sub>3</sub> |             | 0,55                | %    |        |        |
|                  | CaO                            |             | 1,35                | %    |        |        |
|                  | Fe <sub>2</sub> O <sub>3</sub> |             | 1,36                | %    |        |        |
|                  | MgO                            | [1309-48-4] | 0,045               | %    |        |        |
|                  | MnO                            |             | 0,031               | %    |        |        |
|                  | Phosphorus (P)                 | [7723-14-0] | 0,0122              | %    |        |        |
|                  | SiO <sub>2</sub>               |             | 96,1                | %    |        |        |
