

## **1-Adrenosterone**

Art. ID TRC-A305605-100MG  
Unit 100 mg

### Description

Application Note: ?1-Adrenosterone is a derivative of Adrenosterone (A305600), and is suspected to have some inhibitory effects on estrogen biosynthesis in human placental microsomes. ?1-Adrenosterone also has potential androgenic anabolic and antiuterotropic activity.

| Text/Information | Analyte/Parameter     | CAS number  | Concentration/Value | Unit | Method | Source |
|------------------|-----------------------|-------------|---------------------|------|--------|--------|
|                  | Delta-1-Adrenosterone | [7738-93-4] |                     |      |        |        |
