

4-(2-Aminophenyl)-4-oxo-2-butenic Acid

Art. ID TRC-A638220-50MG
Unit 50 mg
Deliverydetails to be checked

Description

Application Note: 4-(2-Aminophenyl)-4-oxo-2-butenic Acid is a novel human lens metabolite from normal and cataractous human lenses. A UV filter.

Text/Information	Analyte/Parameter	CAS number	Concentration/Value	Unit	Method	Source
