

1-Amino-7-chloro-3-methylbenzo[e][1,2,4]thiadiazine 1-oxide

Art. ID TRC-A605595-5MG
Unit 5 mg
Deliverydetails to be checked

Description

Application Note: 1-Amino-7-chloro-3-methylbenzo[e][1,2,4]thiadiazine 1-oxide is a derivative of 3-Methyl-4H-1,2,4-benzothiadiazine 1,1-dioxide (M292970) which functions in structure activity relations analysis of benzothiadiazine compounds as hyperglycemic agents by correlating with the reduction in urine output in vivo and insulin production both in vivo and in vitro. Also functions as an antihypertensive agent.
