

3-(2-Aminoethyl)-6-fluoro-2-(4-(methylamino)phenyl)-1H-indole-4-carboxylic Acid

Art. ID TRC-A765195-5MG
Unit 5 mg
Deliverydetails to be checked

Description

Application Note: 3-(2-Aminoethyl)-6-fluoro-2-(4-(methylamino)phenyl)-1H-indole-4-carboxylic Acid is an impurity of Rucaparib (R701580) a PARP1 inhibitor. It can be used in biological study of chemical screening to identify drugs that enhance or mitigate cellular responses to antibody-toxin fusion proteins using human B cell precursor leukemia cells and cervical adenocarcinoma cells.
