

1-(4-Amino-3,5-dichlorophenyl)-2-((4-hydroxycyclohexyl-D10)amino)ethanone

Art. ID TRC-A572502-25MG
Unit 25 mg
Deliverydetails to be checked

Description

Application Note: 1-(4-Amino-3,5-dichlorophenyl)-2-((4-hydroxycyclohexyl-D10)amino)ethanone is an intermediate in the synthesis of Clencyclohexerol-d10 (C572502), which is a labelled analog of Clenbuterol, a beta-agonist which can be used as a growth promoter in farm animals.
