

Peptide standard for Angiotensin II, synthetic human

Art. ID	NRC-ANGII-1
Unit	25 mg
Deliverydetails	No Dangerous Good

Description

Certified, reference, and information values for mass fraction of the synthetic peptide angiotensin II (DRVYIHPF), trifluoroacetic acid (TFA), water, and related peptide impurities have been established for this certified reference material (CRM).

Text/Information	Analyte/Parameter	CAS number	Concentration/Value	Unit	Method	Source
Certified value	Angiotensin II	[4474-91-3]	691 ± 9	mg/g		
Certified value	Trifluoroacetic Acid	[76-05-1]	248 ± 4	mg/g		
Reference value	Water	[7732-18-5]	34 ± 8	mg/g
