

USP Excipients Workshop: Excipient Composition and the Formulation of Biotechnology Drugs (On-Demand)

Art. ID	USP-EXC-WS-16
Unit	Each
Deliverydetails	No Dangerous Good

Description

Excipient composition may impact the critical quality attributes of biologics drug products and bring challenges to the excipient monograph Up-to-Date Initiative. USP aims to work closely with FDA and industry stakeholders in identifying a pathway for novel excipients not yet in approved drug products. (Webcast 33 minutes)
