

Introduction to USP Reference Standards (On-Demand)

Art. ID	USP-EURS-03
Unit	Each
Deliverydetails	No Dangerous Good

Description

This half-day course will provide information on USP Reference Standards as highly characterized chemical specimens required for use in USP-NF compendial methods. The course offers a detailed look at types of Reference Standards and practical application. Information related to the science behind Reference Standard development as well as specific cases, metrology, and USP support services will also be covered. There will be a knowledge assessment at the end of the course. If this course is taken as part of the USP certificate program, you will be required to pass this knowledge assessment with a score of 80 percent to determine if your comprehension of the topics presented meets USP's minimum requirements. (2 hours 36 minutes)
