

eLearning: USP Standards: Roles & Responsibilities for Pharmacy Leaders

Art. ID	USP-HQS-HOA-02
Unit	Each
Deliverydetails	No Dangerous Good

Description

The USP Institution Solution is an eLearning, practice-centric, comprehensive training program that helps hospitals meet quality and compliance expectations of USP compounding and safe handling of hazardous drugs standards (General Chapters <795>, <797> and <800>) across the organization.
This course of the education offering is meant for Pharmacy Leaders responsible for the understanding, support and implementation of USP standards on compounding (General Chapters <795> and <797>) and safe handling of hazardous drugs (General Chapter <800>).
