

Fundamentals of Dissolution: Guidance for the Verification and Qualification of a Dissolution Apparatus (Classroom and Laboratory)

Art. ID	USP-CM-711-03
Unit	Each
Deliverydetails	No Dangerous Good

Description

This two-day theory and laboratory course will emphasize the fundamentals of dissolution testing of solid oral dosage forms with a focus on the qualification of USP dissolution apparatus 1 and apparatus 2. The first day will be dedicated to classroom learning on dissolution theory and the guidance presented in USP-NF General Chapter <711>, the handling of dissolution data, and the qualification of an apparatus to prove its suitability for use. The second day will be a laboratory hands-on practice of the instrument qualification and conducting the Performance Verification Test (PVT).
