

Validation, Verification and Transfer of Analytical Procedures (Classroom)

Art. ID	USP-CM-1225-02-01
Unit	Each
Deliverydetails	No Dangerous Good

Description

Learn about parameters for validating analytical procedures for small molecules based on USP?NF General Chapters <1225> Validation of Compendial Procedures and <1226> Verification of Compendial Procedures. Topics include comparing <1225> and <1226> and understanding the differences between <1225> and ICH guidelines. Elements on Method transfer and the complementary chapter USP?NF <1210> Statistical Tools for Procedure Validation will also be discussed in this course.
