

Analysis of Elemental Impurities (On-Demand)

Art. ID	USP-CM-231-05-02
Unit	Each
Deliverydetails	No Dangerous Good

Description

This course discusses revisions made to USP-NF General Chapters <232> Elemental Impurities-Limits and <233> Elemental Impurities-Procedures. In addition to discussing the changes and why they are necessary, this course will cover the implementation timeline, how limits apply to products, and a brief method description. This course also includes a discussion on the draft guidance published by the Food and Drug Administration (FDA) in June 2016 and the implementation timeline that has led to the current standards.
There will be a knowledge assessment at the end of the course. If this course is taken as part of the USP certificate program, you will be required to pass this knowledge assessment with a score of 80 percent to determine if your comprehension of the topics presented meets USP's minimum requirements
