

Dissolution Performance Verification Testing (PVT) (Laboratory)

Art. ID	USP-CM-711-05
Unit	Each
Deliverydetails	No Dangerous Good

Description

This one-day hands-on laboratory training will emphasize activities for proper qualification of a USP dissolution apparatus 1 and/or apparatus 2. The attention will be on evaluating the different apparatus operational parameters as a potential source of variability of dissolution results. This course will provide information about best practices for conducting the Performance Verification Test (PVT) and interpretation of the results obtained.
