

Compendial HPLC Practices (On-Demand)

Art. ID	USP-CM-621-02-01
Unit	Each
Deliverydetails	No Dangerous Good

Description

This course discusses the USP General Chapter <621> Chromatography with the focus on system suitability parameters, and adjustments allowed to the chromatographic system. Additional topics covered in this course are basis of HPLC theory, column selection and practice. Update on harmonization efforts and elements on validation and verification of compendial procedures will be also discussed.
There will be a knowledge assessment at the end of the course. If this course is taken as part of the USP certificate program, you will be required to pass this knowledge assessment with a score of 80 percent to determine if your comprehension of the topics presented meets USP's minimum requirements.
