

Out of Stock - Product is not available at this time - Gallium Melting-Point Reference (29.7646 Degrees Celsius) (fixed-point cell)

Art. ID NIST-8174
Unit 25 g
Deliverydetails ADR Limited Quantity (LQ) / AIR Dangerous Good (DG) UN2803 III E0

Description

Reference Material (RM) 8174 is intended primarily for use as a reference point to enable laboratories to compare their present realization of a temperature scale at the gallium melting point with NIST's historical realizations of the International Practical Temperature Scale of 1968 (IPTS-68) circa June 1977 and of the International Temperature Scale of 1990 (ITS-90) circa March 11, 1991, where these dates correspond to the dates on the certificates initially provided with SRM 1968 and when updated for the transition from IPTS-68 to ITS-90.
