

## Lake Water (lot 1024) - Major ions and nutrients

Art. ID	NW-AES-15
Unit	500 mL
Deliverydetails	No Dangerous Good /not restricted

### Description

Environment and Climate Change Canada matrix reference materials (RMs) are collected in bulk from various locations across North America. AES-15 was collected from Downsview, Ontario in September and November 2014. The bulk sample was re filtered to remove particulates and filtered through a 0.2 µm sterilizing filter to remove bacteria. This bulk Major Ions and Nutrients in water RM is stored in a dark cold room and is unpreserved. This Reference Material is intended for the verification or development of analytical methods for environmental analysis. It is not intended for use as a calibration standard.
