

## **PD 168077 Maleate - CAS 630117-19-0 - Calbiochem**

Art. ID SAF-5058780001

Unit EA

### Description

A selective D4 dopamine receptor agonist ( $K_i = 8.7 \text{ nM}$ ,  $EC_{50} = 8.3 \text{ nM}$ ). Suitable for central and peripheral delivery. Used in studies of penile erection, learning and memory. Exhibits some binding affinity towards human D2 and D3 Receptors ( $K_i = 2.8 \cdot 10^{-6} \text{ M}$ ).
