## InSolution™ Y-27632, Sterile-Filtered, Cell Culture-Tested - CAS 146986-50-7 - Calbiochem A 10 mM (2 mg/591 µL) sterile-filtered solution of Y-27632 in H?O.

Art. ID SAF-5092280001

Unit EA

## Description

Ready to use, cell culture-tested, suitable for stem cell applications. Acts as a highly potent, cell-permeable, reversible, and selective inhibitor of Rho-associated protein kinases (Ki = 140 nM for p160ROCK). Also shown to improve survival of human stem cells especially during cell culture passage and manipulation., A 10 mM (2 mg/591 &#181,L) sterile-filtered solution of Y-27632 in H&#8322,O.
