

Fmoc-Tyr(PO(OBzl)OH)-OH Novabiochem(R)

Art. ID SAF-8520710050

Unit EA

Description

An excellent building block for the preparation of phosphotyrosine-containing peptides [1]. This derivative can be introduced using standard activation methods, such as PyBOP(R) and TBTU. Using this reagent, even peptides containing multiple phosphorylation sites have been prepared efficiently by standard Fmoc SPPS methods [1]. The product number for this product was previously 04-12-1156. To obtain a certificate of analysis (CoA) of a lot that begins with the letter "A", please select the option in the right hand menu "Request a CoA for Lot#s starting with A".
