

Sieber Amide resin Novabiochem(R)

Art. ID SAF-8550080100

Unit EA

Description

A hyper acid-labile linker for the Fmoc SPPS of protected peptide amides via mild 1% TFA cleavage [1, 2]. The resin can be readily reductively alkylated to provide a support suited to the synthesis of secondary carboxamides [3]. This resin has also been employed to produce protected peptide fragments in which the C-terminal carboxylic acid group is blocked as a hydroxymethylphenoxy- β -alaninamide ester [4]. The product number for this product was previously 01-64-0059. To obtain a certificate of analysis (CoA) of a lot that begins with the letter "A", please select the option in the right hand menu "Request a COA for Lot#s starting with A".
