

alpha-D-Glucose-6-phosphate, Monosodium Salt - CAS 54010-71-8 - Calbiochem

Art. ID SAF-346764-1GM-M
Unit 1 g
Deliverydetails No Dangerous Good /not restricted

Description

A glycolytic intermediate that also acts as a competitive and reversible inhibitor of hexokinase. Useful in creating an ATP-regenerating system. Causes the release of mitochondrially bound hexokinase in muscle.
