

Round robin on secondary Alumina Al₂O₃ (proficiency test) - part A, chemical parameters

Art. ID	L-RR-2302SA-A
Unit	1 bottle/powder
Deliverydetails	No Dangerous Good /not restricted

Description

The round robin test will be carried out on primary alumina. There are two distinct parts proposed to be analyzed ///
Part A: chemical parameters: Elements analyzed with XRF - Phase analysis with XRD Elementary analysis
(Carbon, Sulfur)
