

**MicroPrefs Polyethylene terephthalate tablet (50-300 µm), 50-70 particles**

Art. ID                      CHIR-24121-71  
Unit                         each

Description

Microplastics are tiny plastic pieces ranging from macro- to nano-sized particles that have become widespread pollutants. These non-biodegradable particles accumulate in our surroundings and eventually in food and drinking water making them harmful to both the environment and human health.
