

**MicroPrefs Polyethylene tablets (50-300 µm), 50-70 particles, 3/PK**

Art. ID                      CHIR-24121-69  
Unit                            each

Description

Microplastics are tiny plastic pieces ranging from macro- to nano-sized particles that have become widespread pollutants. These non-biodegradable particles accumulate in our surroundings and eventually in food and drinking water making them harmful to both the environment and human health.
